BOTANICARE®

COCOPRO™

High-quality media for high-quantity growing

OUR STORY

HELPING GROWERS GROW BETTER CROPS

What started as an experimental plant nutrient, Pure Blend Tea®, brewed in the back room of an Arizona retail gardening store has evolved into Botanicare, a market leader in hydroponic products. After 20 years of innovation, foresight and unconventional thought, we have seen the industry and our company blossom. Through it all, we've been committed to finding new ways to empower growers to do what they do best — grow.

From our bestselling supplements like Cal-Mag Plus® to performance-driven grow medias like Readygro bagged cocos, and the high-quality Slide Bench System, every product in our portfolio is designed to give cultivators the customization they need to produce outstanding crops, no matter what or how they grow. The CocoPro line is our latest innovation to do just that.

COCOPRO™

HIGH-QUALITY MEDIA FOR HIGH-QUANTITY GROWING

CocoPro cubes, bags and plugs make it easy to achieve consistent results for even the largest commercial growers.

Our compressed coco products are made from high-quality, buffered coconut coir. The entire CocoPro line is designed to provide consistent quality and reduce the time and labor costs required to hand-fill pots.

Chosen for its natural ability to retain nutrients and water, coco coir provides a desirable air/water ratio to help prevent over- and underwatering. The high-porosity blend in CocoPro helps your roots easily access water and aids in plant vitality. Air-pruning fabric covers promote vigorous root growth and branching.

The CocoPro line is easy to ship, store and scale. Just add water to hydrate (see usage recommendations) and they're ready to use. When your growing cycle ends simply remove the bag and you can compost the coco coir.

FEATURES

- Premium buffered coir
- Thoroughly washed for low EC level
 - Low Sodium
 - Low Potassium
 - Low Chloride
- Specifically blended to provide:
 - Excellent gas exchange
 - Proper water retention
 - High degree of control over fertigation
 - Consistent air/water ratio throughout
- Naturally retains nutrients upon feeding plant
- Fabric cover that promotes natural root pruning and branching
- Pre-drilled indentation for easy planting and fast hydration (cubes only)
- Compostable coir (remove fabric cover before composting)

COCOPRO PLUGS

All the benefits of Botanicare’s high-quality CocoPro line, with the convenience and consistency of a mineral wool starter plug.

Available sizes:

Sold in case quantities only.

CASE QTY	SIZE (When hydrated)	COMPRESSED WEIGHT
1400	35mm x 35mm x 30mm*	1g
3000	35mm x 35mm x 30mm*	1g

*Minimum height - results may vary within a range of 30-45mm

COCOPRO CUBES

CocoPro cubes come with a custom blend of coco pith and fibers. Each cube features a pre-drilled indentation for easy planting and fast hydration.

Available sizes:

Sold in case quantities only.

SIZE (When hydrated)	COMPRESSED WEIGHT	CASE QTY	WATER HOLDING CAPACITY	POROSITY
4" x 4" x 4"	0.20 lb	130	70 - 80%	90%
6" x 6" x 6"	1.10 lb	30	60 - 70%	90%

COCOPRO BAGS

These media bags are ideal for flexible planting options. Air-pruning fabric promotes vigorous root growth and branching.

Available sizes:

Sold in case quantities only.

SIZE	COMPRESSED WEIGHT	BAG SIZE	CASE QTY	WATER HOLDING CAPACITY	POROSITY
#1	1.30 lb	1.4 gal	30	60 - 70%	90%
#3	2.10 lb	2.4 gal	14	55 - 65%	90%
#5	3.15 lb	3.5 gal	12	55 - 65%	90%
